

Subject Index Volume 64&65

A

- Acetaldehyde-induced bronchoconstriction in asthmatics, effect of pranlukast hydrate, **65.41**
Adipogenesis markers, expression in murine stromal cell line, **65.216**
Aging
cognitive deficits, brain and hippocampus fatty acid composition and, **64.189**
paraoxonase and platelet-activating factor acetylhydrolase activities and, **65.241**
Airway contractility, effect of dietary n-3 and n-6 polyunsaturated oils, **64.281**
Alloxan-induced cytotoxicity, protective action of arachidonic acid, **64.37**
Angiotensin II, stimulation of PGF_{2α} release via L-type calcium channels, **65.73**
Anti-oxidants, vegetarians and non-vegetarians, **64.53**
Antidepressants, cancer prevention and treatment, **65.233**
Apoptosis, role of dietary polyunsaturated fatty acids, **64.151**
Arachidonic acid (AA)
effect of AA-rich oil on lipids and arachidonate metabolites in ethanol-treated rats, **64.273**
effects of fatty acyl CoA esters on prostaglandin and arachidonoyl-CoA formed from AA in kidney medulla, **64.61**
protective action against alloxan-induced cytotoxicity and diabetes mellitus, **64.37**
stimulated release by agonists of peroxisome proliferator-activated receptor and retinoic acid receptors, **65.229**
stimulated release from rat liver cells by celecoxib and indomethacin, **65.31**
tyrosine kinase-phosphorylated protein in arachidonic acid-treated cells, **65.173**
Arachidonyl trifluoromethyl ketone induction of lipid body formation in leukocytes, **64.227**
Arterial disease, peripheral occlusive, effects of intravenous oxygen on prostacyclin and thromboxane formation, **65.211**
Arthritis
adjuvant induced, role of novel derivative pentacyclic triterpene and ω3 fatty acid (Lupeol-EPA), **64.81**
see also Rheumatoid arthritis
Aspirin: effect on eicosanoids of low-dose aspirin combined with fish oil, **64.291**
Atherosclerosis
6-oxo-PGF_{1α} and 8-epi-PGF_{2α} in arterial wall layers, **64.167**
protective effect of plant sterols, **64.323**
Autism: plasma fatty acid levels in autistic children, **65.1**

B

- Beraprost, effects compared with PGE₁, nitroglycerin and nifedipine, **64.197**
Beta-adrenoceptor antagonist, cyclosporine A-induced hypertension, **65.259**
BM-573 activity on platelet function and isolated smooth muscles, **65.67**
Bone
immunohistochemical localization of prostacyclin receptor (IP), **65.79**
resorption, prostaglandin-induced increase in neonatal mouse calvaria, **64.117**
Bone marrow cells, expression of adipogenesis markers, **65.216**

- Bosentan, improvement of respiratory function in endotoxic shock, **65.103**
Bradykinin, effect on prostaglandin production in rat vas deferens, **65.9**
Breastfeeding: association of breastfeeding duration, milk fat composition and developmental indices at one year, **64.105**
Bronchoconstriction, acetaldehyde-induced, effect of pranlukast hydrate, **65.41**

C

- Calcium, involvement in angiotensin II-induced PGF_{2α} release, **65.73**
Calcium ATPase activity, effect of essential fatty acid supplementation, **64.147**
Cancer
15-lipoxygenase-1 activity and localization in colorectal carcinoma Caco-2 cells, **64.217**
antidepressants and eicosanoids and: review, **65.233**
pancreatic, influence of vitamins A, C and E on lipid peroxidation, **65.165**
peroxisome proliferator-activated receptor-γ expression in malignant and normal cell lines, **241**
prostaglandin E₂ concentrations in naturally occurring canine cancer, **64.1**
role of dietary polyunsaturated fatty acids in preneoplastic urothelial proliferation, **64.151**
uptake and metabolic conversion of fatty acids in Hep2 larynx tumor cells, **65.295**
Celecoxib, and release of arachidonic acid from rat liver cells, **65.31**
Cells
Hep2, uptake and metabolic conversion of fatty acids, **65.295**
stromal, expression of adipogenesis markers, **65.216**
Cognitive deficits, aged-relative, brain and hippocampus fatty acid composition and, **64.189**
Colorectal carcinoma, 15-lipoxygenase-1 activity and localization in Caco-2 cells, **64.217**
Corticosteroids, effects in glomerular disorders, **65.197**
Cyclooxygenase (COX), in streptozotocin-pancreatic damage, **64.311**
Cyclooxygenase-2 (COX-2), platelets, **64.299**
Cyclooxygenase-2 selective inhibitors, evaluation on purified ovine enzymes and human whole blood, **64.211**
Cyclosporine A-induced hypertension, nitric oxide in, role of β-adrenoreceptor antagonist and thromboxane A₂, **65.259**
Cyclosporine A nephrotoxicity, preventive role of prostanoids and endothelins, **64.231**
Cysteinyl leukotriene antagonist, effect on acetaldehyde-induced bronchoconstriction in asthmatics, **65.41**
Cytotoxicity, alloxan-induced, protective action of arachidonic acid, **64.37**

D

- 15-Deoxy-Δ^{12,14}-prostaglandin J₂, effect on adipogenesis in stromal cell lines, **65.215**
Diabetes mellitus
modulation of PGE₂ generation in diabetic embryo, **64.127**
protective action of arachidonic acid, **64.37**
thromboxane A₂ synthesis and expression of procoagulant activity, **65.133**
vascular complications, thromboxane/prostacyclin ratio and, **65.191**

Diet

polyunsaturated fatty acids
effect on insulin sensitivity and lipid metabolism in OLETF rats, **64.181**

modulation of urothelial proliferation and apoptosis, **64.151**
restricted, opioid effects on uterine glucose and eicosanoid metabolism, **65.117**

Docosahexaenoic acid (DHA)

effects of eicosapentaenoic acid/docosahexaenoic acid in glomerular disorders, **65.197**

effects on rat liver and reproductive tissue, **65.23**

prevention of activation of cyclin-dependent kinases and S-phase entry by serum stimulation in HT-29 cells, **64.67**

supplementation in essential fatty acid deficiency, effects on cellular fatty acid acyl desaturation, **64.11**

Doxorubin-induced damage in cardiomyocytes, counteracting role of ω -linolenic acid, **64.139**

Dyslexia, platelet activating factor and, **64.173**

E

Eicosanoids

antidepressants and, cancer prevention and treatment, **65.233**

effect of low-dose aspirin combined with fish oil, **64.291**

from human saphenous vein endothelial cells, profile and effect of dietary fatty acids, **65.15**

metabolism in restricted diet rats, effects of opioids, **65.117**

see also specific eicosanoids

Eicosapentaenoic acid (EPA)

attenuation of oxalate-induced nephrotoxicity by eicosapentaenoate-lipoate derivative, **65.265**

role of Lupeol-EPA in adjuvant induced arthritis in rats, **64.81**

Eicosapentaenoic acid/docosahexaenoic acid, effects in glomerular disorders, **65.197**Electrical stimulation, effect on prostaglandin production in rat vas deferens, **65.9**

Endothelins

involvement in respiratory centre activity, **65.157**

relationship with nitric oxide in intestinal ischemia/reperfusion injury, **64.253**

role in prevention of cyclosporine-induced nephrotoxicity, **64.231**
in infants, **64.317**

Enzyme immunoassay (EIA), measurement of urinary PGE₂ in infants, **64.317**

Essential fatty acids see under Fatty acids

Exercise: response of muscle interstitial prostaglandin E₂, prostacyclin and thromboxane A₂ during incremental dynamic exercise determined by in vivo microdialysis, **64.259**

F

Fatty acids

brain and hippocampus composition, aged-relative cognitive deficit rats, **64.189**

composition, effect of dietary gamma-linolenic acid, **65.205**

in composition of milk lipids of Nepalese women, **65.147**

dietary, effect on eicosanoids produced by saphenous vein endothelial cells, **65.15**

essential

deficiency and supplementation with DHA; 22:6n-3), effects on cellular fatty acid acyl desaturation, **64.11**

as mediators of statins, **65.37**

modulation of intestinal vitamin D receptor availability and calcium ATPase activity, **64.147**

vegetarians and non-vegetarians, **64.53**

plasma levels in autistic children, **65.1**

polyunsaturated

dietary, effect on airway contractility, **64.281**

dietary, modification of vascular dysfunction in hypertension, **65.91**

dietary, modulation of urothelial proliferation and apoptosis, **64.151**

effect of fish-oil supplements in pregnancy on neonatal long-chain polyunsaturated fatty acid status, **65.51**

effect on insulin sensitivity and lipid metabolism in OLETF rats, **64.181**

glucose-insulin-potassium regimen and, effect in lupus and other inflammatory conditions, **65.109**

polyunsaturated long-chain, biochemical effects of supplementation in hyperphenylalaninemia, **64.111**

role of a novel derivative pentacyclic triterpene and ω 3 fatty acid (Lupeol-EPA) in adjuvant induced arthritis, **64.81**

uptake and metabolic conversion in Hep2 larynx tumor cells, **65.295**

Fatty acyl CoA esters, effects on prostaglandin and arachidonoyl-CoA formed from arachidonic acid in kidney medulla, **64.61**

Fish oil

effect on eicosanoids of low-dose aspirin combined with fish oil, **64.291**

effect on lipid peroxidation of short-term dietary administration of marginal levels, **64.265**

effect of three low-dose supplements in pregnancy on neonatal long-chain polyunsaturated fatty acid status, **65.51**

Flavonoids, differential effects on epidermal cytosolic phospholipase A₂, **65.281**

G

Gamma-linolenic acid, role in counteracting doxorubicin-induced damage in cardiomyocytes, **64.139**

Garlic-induced hypotension, possible mechanism, **64.5**

Glomerular disorders, effect of corticosteroids and eicosapentaenoic acid/docosahexaenoic acid, **65.197**

Glucose metabolism in restricted diet rats, effects of opioids, **65.117**

Glucose-insulin-potassium regimen combined with polyunsaturated fatty acids, lupus and other inflammatory conditions, **65.109**

Glutathione levels after skeletal muscle ischemia-reperfusion, effects of nitric oxide, **65.179**

Growth factors, vascular endothelial, prostaglandin E₂ modulation of production in macrophages, **65.123**

H

15-Hydroxyprostaglandin dehydrogenase mRNA expression

HL60 cells differentiated by PMA, effect of indomethacin, **64.87**

murine uterine and gestational tissues in late pregnancy, **64.247**

Hyperphenylalaninemia, biochemical effects of supplemented long-chain polyunsaturated fatty acids, **64.111**

Hypertension

CsA-induced, nitric oxide in: role of β -adrenoreceptor antagonist and thromboxane A₂, **65.259**

dietary polyunsaturated fatty acid and modification of vascular dysfunction, **65.91**

pulmonary, effects of beraprost, **64.197**

thromboxane B₂, prostaglandin E₂ and hypertension in rat 2-kidney 1-clip model, **64.5**

Hypotension, garlic-induced, possible mechanism, **64.5**

I

Ibuprofen, attenuation of early lung injury in endotoxemic, neutropenic rats, **65.59**

Immune function, effect of dietary gamma-linolenic acid, **65.205**

Immunohistochemical localization of prostacyclin receptor (IP) in bone, **65.79**

Indomethacin

effect on 15-PGDH mRNA expression in HL60 cells differentiated by PMA, **64.87**

- effects on prostaglandin production by placenta, **64.23**
and release of arachidonic acid from rat liver cells, **65.31**
- Inflammatory disorders, effect of glucose-insulin-potassium regimen combined with polyunsaturated fatty acids, **65.109**
- Insulin
glucose-insulin-potassium regimen combined with polyunsaturated fatty acids, effect in lupus and other inflammatory conditions, **65.109**
sensitivity to, effect of dietary polyunsaturated fatty acid, **64.181**
- Ischemia, lower limb, effect of revascularisation on leukotriene E4 production, **64.289**
- Ischemia-reperfusion injury
intestinal, nitric oxide and endothelin relationship in, **64.253**
skeletal muscle, effects of nitric oxide following, **65.179**
- Isoprostanes
6-oxo-PGF_{1 α} and 8-epi-PGF_{2 α} in arterial wall layers, **64.167**
8-iso-PGF_{2 α} excretion rate, **65.99**
increase of 8-epi-PGF_{2 α} after restarting smoking, **64.307**
transcardiac 8-iso-prostaglandin F_{2 α} generation from acute myocardial infarction heart: marker for oxidant stress, **64.161**

K

- Kinases, cyclin-dependent, effects of docosahexaenoic acid, **64.67**

L

- Larynx tumor cells Hep2, uptake and metabolic conversion of fatty acids, **65.295**
- Leukotriene E₄ (LTE₄)
production, effect of revascularisation of ischaemic lower limb, **64.289**
urinary, rheumatoid arthritis, **65.301**
- Linoleic acids
conjugated, effects on rat liver and reproductive tissue, **65.23**
dose-dependent effects of dietary gamma-linolenic acid on fatty acid composition and immune parameters, **65.205**
- Linolenic acid, gamma, role in counteracting doxorubicin-induced damage in cardiomyocytes, **64.139**
- Lipid body formation in leukocytes, arachidonyl trifluoromethyl ketone and, **64.227**
- Lipid metabolism, effect of dietary polyunsaturated fatty acid, **64.181**
- Lipid peroxidation
effects of short-term dietary administration of marginal levels of vitamin B₆ and fish oil, **64.265**
microsomes and mitochondria from different rat tissues: effect of retinyl palmitate, **64.75**
product levels in bovine retained and not retained placenta, **64.33**
- Lipids
dietary, airway contractility and, **64.281**
effect of arachidonic acid-rich oil in ethanol-treated rats, **64.273**
peroxidation
lung surfactant, inhibition by surfactant protein A, **65.185**
in pancreatic cancer, influence of antioxidative vitamins, **65.165**
- Lipoic acid: attenuation of oxalate-induced nephrotoxicity by eicosapentaenoate-lipoate derivative, **65.265**
- Lipopolysaccharide, gestational age-dependent effects on prostaglandin production, **64.135**
- 15-Lipoxygenase-1 activity and localization in colorectal carcinoma Caco-2 cells, **64.217**
- Liver
effects of conjugated linoleic acids and docosahexaenoic acid, **65.23**
stimulated release of arachidonic acid by celecoxib and indomethacin, **65.31**
- Lower limb ischaemia, effect of revascularisation on leukotriene E4 production, **64.289**
- Lung injury, ibuprofen attenuation of early injury, **65.59**
- Lupeol-EPA, role in relation to lysosomal enzymes, glycoproteins and collagen in adjuvant induced arthritis, **64.81**

- Lupus erythematosus, effect of glucose-insulin-potassium regimen combined with polyunsaturated fatty acids, **65.109**

M

- Macrophage activation, differential mRNA expression of prostaglandin receptor subtypes, **65.287**
- Malondialdehyde, effects of nitric oxide after skeletal muscle ischemia-reperfusion, **65.179**
- Microdialysis in vivo technique, determination of responses during incremental dynamic exercise, **64.259**
- Milk, human
fat composition and breastfeeding duration, effect on developmental indices at 1 year, **64.105**
fatty acid composition of milk lipids of Nepalese women, **65.147**
- mRNA
differential expression, prostaglandin receptor subtypes in macrophage activation, **65.287**
expression, cytosolic phospholipase A₂ and 15-hydroxyprostaglandin dehydrogenase in uterine and gestational tissues, **247**
- Muscle, skeletal, effects of nitric oxide after ischemia-reperfusion, **65.179**

N

- Natriuresis, volume-induced, in healthy women, **64.95**
- Nephrotoxicity
cyclosporine-induced, preventive role of prostanoids and endothelins, **64.231**
oxalate-induced, attenuation by eicosapentaenoate-lipoate derivative, **65.265**
- Nitric oxide
cyclosporine A-induced hypertension, role of β -adrenoreceptor antagonist and thromboxane A₂, **65.259**
effect on PGE₂ generation in diabetic embryo, **64.127**
effects after skeletal muscle ischemia-reperfusion, **65.179**
relationship with endothelins in intestinal ischemia/reperfusion injury, **64.253**
in streptozotocin-pancreatic damage, **64.311**
- Non-steroidal anti-inflammatory drugs (NSAIDs), evaluation on purified ovine enzymes and human whole blood, **64.211**
- NS-398, effects on prostaglandin production by placenta, **64.23**

O

- Opioids, effects on uterine glucose and eicosanoid metabolism in restricted diet rats, **65.117**
- Opuntia robusta ingestion, effect on oxidation injury, **65.45**
- Osteoblasts
characterization of prostaglandin receptors in, **64.203**
sphingosine-1-phosphate effects on PKC isoform expression, **65.139**
- Oxalate-induced nephrotoxicity, attenuation by eicosapentaenoate-lipoate derivative, **65.265**
- Oxidant stress, vegetarians and non-vegetarians, **65.43**
- Oxidation injury
effect of opuntia robusta ingestion, **65.45**
smoking and, **64.307**
- Oxygen, intravenous, effects on prostacyclin and thromboxane formation in peripheral occlusive arterial disease, **65.211**

P

- Pancreas, streptozotocin-induced damage, inducible isoforms of COX and NOS in, **64.311**
- Pancreatic cancer, influence of vitamins A, C and E on lipid peroxidation, **65.165**
- Paraoxonase activity, aging and, **65.241**

- Pentacyclic triterpene, role of a novel derivative pentacyclic triterpene and ω 3 fatty acid (Lupeol-EPA) in adjuvant induced arthritis, **64.81**
- Peroxidation, lipids *see* Lipids, peroxidation
- Peroxisome proliferator-activated receptor agonists, stimulation of arachidonic acid release, **65.229**
- Peroxisome proliferator-activated receptor- γ expression in malignant and normal cell lines, **241**
- Phospholipase A₂
- cytosolic, mRNA expression in murine uterine and gestational tissues in late pregnancy, **64.247**
 - epidermal cytosolic, differential effects of flavonoids, **65.281**
- Phytosterols, dietary, effect on vascular smooth muscle cells, **64.323**
- Placenta
- bovine retained/not retained, lipid peroxidation product levels, **64.33**
 - prostaglandin production, effects of indomethacin, NS-398 and protein synthesis inhibitors, **64.23**
- Platelet activating factor, dyslexia and, **64.173**
- Platelet-activating factor acetylhydrolase activity, aging and, **65.241**
- Platelet function, activity of novel thromboxane A₂ receptor antagonist and thromboxane synthase inhibitor, **65.67**
- Polyunsaturated fatty acids *see under* Fatty acids
- Potassium: glucose-insulin-potassium regimen combined with polyunsaturated fatty acids, effect in lupus and other inflammatory conditions, **65.109**
- Pranlukast hydrate, effect on acetaldehyde-induced bronchoconstriction in asthmatics, **65.41**
- Pregnancy
- cytosolic phospholipase A₂ and 15-hydroxyprostaglandin dehydrogenase mRNA expression in murine uterine and gestational tissues in late pregnancy, **64.247**
 - effects of conjugated linoleic acids and docosahexaenoic acid on reproductive tissue, **65.23**
 - fish-oil supplements, effect on neonatal long-chain polyunsaturated fatty acid status, **65.51**
 - gestational age-dependent effects of lipopolysaccharide on prostaglandin production, **64.135**
- Prickly pear *see* Opuntia robusta
- Procoagulant activity, expression in diabetes mellitus, **65.133**
- Propanolol, prevention of cyclosporine A-induced hypertension, **65.259**
- Prostacyclin *see* Prostaglandin I₂
- Prostaglandin A₂ (PGA₂): tyrosine kinase-phosphorylated protein in PGA₂-treated cells, **65.173**
- Prostaglandin E₂ (PGE₂)
- concentrations in naturally occurring canine cancer, **64.1**
 - effects of nitric oxide on PGE₂-like activity after skeletal muscle ischemia-reperfusion, **65.179**
 - modulation of generation in diabetic embryo, **64.127**
 - modulation of vascular endothelial growth factor production in macrophages, **65.123**
 - muscle interstitial, response in dynamic exercise determined by in vivo microdialysis, **64.259**
 - receptors, differential mRNA expression in macrophage activation, **65.287**
 - thromboxane-B₂, prostaglandin E₂ and hypertension in rat 2-kidney 1-clip model, **64.5**
 - urinary concentrations measured by new EIA method in infants, **64.317**
- Prostaglandin F₂ (PGF₂): determination of 9 α ,11 β -PGF₂ in urine by combined solid-phase extraction and radioimmunoassay, **65.271**
- Prostaglandin F_{2 α} (PGF_{2 α})
- angiotensin-induced release via L-type calcium channels, **65.73**
 - metabolite (15-keto-dihydro-PGF_{2 α}) excretion rate, **65.99**
- Prostaglandin I₂ (PGI₂; prostacyclin)
- analysis of urinary prostacyclin and thromboxane/prostacyclin ratio in rheumatoid arthritis, **65.85**
 - effect of PGI₂ analogue on progression rate of renal dysfunction, **65.223**
 - formation in peripheral occlusive arterial disease, effects of intravenous oxygen, **65.211**
 - immunohistochemical localization of receptor (IP) in bone, **65.79**
 - muscle interstitial, response in dynamic exercise determined by in vivo microdialysis, **64.259**
 - renal metabolism in volume-induced natriuresis, **64.95**
 - TXA₂/prostacyclin ratio and diabetic vascular complications, **65.191**
- Prostaglandins
- biosynthesis in dispersed choriodecidual cells in culture, **65.247**
 - effect of bradykinin and electrical stimulation on production in rat vas deferens, **65.9**
 - effects of fatty acyl CoA esters on formation in kidney medulla, **64.61**
 - induction of bone resorption in neonatal mouse calvaria, **64.117**
 - production by murine decidual caps, gestational age-dependent effects of lipopolysaccharide, **64.135**
 - production by placenta: effects of indomethacin, NS-398 and protein synthesis inhibitors, **64.23**
 - receptors, characterization in osteoblasts, **64.203**
 - see also* Isoprostanes
- Prostanoids
- pharmacology of IP prostanoid receptors in NCB-20 cells, **65.253**
 - physiological role in volume-induced natriuresis, **64.95**
 - role in prevention of cyclosporine-induced nephrotoxicity, **64.231**
- Protein synthesis inhibitors, effects on prostaglandin production by placenta, **64.23**

R

- Radioimmunoassay combined with solid-phase extraction, determination of 9 α ,11 β -PGF₂ in urine, **65.271**
- Renal insufficiency, effect of PGI₂ analogue on progression rate of renal dysfunction, **65.223**
- Reproductive tissue, effects of conjugated linoleic acids and docosahexaenoic acid, **65.23**
- Respiratory system mechanics, endothelin and, **65.157**
- Retinoic acid receptor agonists, stimulation of arachidonic acid release, **65.229**
- Retinyl palmitate, effect on lipid peroxidation of microsomes and mitochondria from different rat tissues, **64.75**
- Rheumatoid arthritis
- analysis of urinary prostacyclin and thromboxane/prostacyclin ratio, **65.85**
 - urinary 11-dehydro TXB₂ and LTE₄ excretion, **65.301**

S

- Saphenous vein endothelial cells, profile of eicosanoids produced and effect of dietary fatty acids, **65.15**
- Shock, endotoxic, bosentan and, **65.103**
- Smoking, effect of restarting on isoprostane 8-epi-PGF_{2 α} , **64.307**
- Smooth muscles, activity of novel thromboxane A₂ receptor antagonist and thromboxane synthase inhibitor, **65.67**
- Sphingosine-1-phosphate (SIP) effects on PKC isoform expression in osteoblasts, **65.139**
- Statins, essential fatty acids as mediators of action, **65.37**
- Stone formation, inhibition by eicosapentaenoate-lipoate derivative, **65.265**
- Streptozotocin-induced pancreatic damage, inducible isoforms of COX and NOS in, **64.311**
- Superoxide dismutase, effect on PGE₂ generation in diabetic embryo, **64.127**
- Surfactant: surfactant protein A inhibition of lipid peroxidation of lung surfactant, **65.185**

T

- Thromboxane
- formation in peripheral occlusive arterial disease, effects of intravenous oxygen, **65.211**

renal metabolism in volume-induced natriuresis, **64.95**
 Thromboxane A₂ (TXA₂)
 cyclosporine A-induced hypertension, **65.259**
 muscle interstitial, response in dynamic exercise determined by
 in vivo microdialysis, **64.259**
 synthesis in diabetes mellitus, **65.133**
 TXA₂/prostaglandin ratio and diabetic vascular complications,
 65.191
 Thromboxane A₂ receptor antagonist, novel, activity on platelet
 function and isolated smooth muscles, **65.67**
 Thromboxane B₂ (TXB₂)
 thromboxane-B₂, prostaglandin E₂ and hypertension in rat 2-
 kidney 1-clip model, **64.5**
 urinary 11-dehydro TXB₂ in rheumatoid arthritis, **65.301**
 Tyrosine kinase-phosphorylated protein in arachidonic acid- and
 prostaglandin A₂-treated cells, **65.173**

V

Vascular dysfunction, modulation in hypertension, dietary polyunsaturated fatty acid and, **65.91**
 Vascular endothelial growth factor, prostaglandin E₂ modulation of production in macrophages, **65.123**
 Vascular smooth muscle cells, effect of plant sterols, **64.323**
 Vegetarians: oxidant stress, anti-oxidants and essential fatty acids in vegetarians and non-vegetarians, **64.53**
 Vitamin B₆, effect on lipid peroxidation of short-term dietary administration of marginal levels, **64.265**
 Vitamin D receptor availability modulation due to EFA supplementation, effect on calcium retention, **64.147**
 Vitamins: influence of vitamins A, C and E on lipid peroxidation in pancreatic cancer, **65.165**
